What we do for your registration, and what your ongoing arrangement takes care of afterwards.

AFTER REGISTRATION

Your Registry, after registration

The Registry · €49 / month

- Company record, documents and relevant correspondence stored together
- A clear compliance calendar with supported self-service workflows
- Emma 24/7 and a personal account manager on working days
- Annual accounts and CIT return for qualifying low-activity companies

Eligibility · Annual work applies to companies that qualify as low-activity for the covered year. We confirm this with you first.

VAT registration is the initial service; your ongoing arrangement determines how records and applicable return work are handled. Payroll and ongoing wage-tax work are configured separately and are not part of your Registry membership. After formation, your Registry keeps the new company's record, documents and obligations organised. Sample assumption: membership billing begins after successful registration; the commencement condition requires commercial confirmation. The first 12 months are billed in advance at that stage. From month 13: €49/month excl. VAT, cancellable monthly. Confirm the approved arrangement before issue.

An alternative: Registry Unlimited

Managed bookkeeping and recurring financial work. Registration plus the alternative membership's first year: €5,387 excluding VAT. This replaces The Registry; it is never added on top. Ask us to update your proposal.
